Subject: New GotSoccer Online Registration Features

Importance: Low

GotSoccer proudly introduces new features for our club Online Registration module.

First, state Risk Management is now faster and easier with Online Registration! Clubs may include the background check form automatically for coach, manager, or volunteer to complete with each registration.

There are two ways to use the new integrated Risk Management feature:

1) Include the background check form in all registrations but manually approve for processing by state. A report will not be processed until the individual registration is marked as complete. This is great if not all registrants will be used this season or when a state is not ready for next years reports to be executed.

To implement, check the box highlighted below in the program basic setup.

Registration Form Access

Players
<input type="checkbox"/> Player Registration Open
<input type="checkbox"/> Allow Player Easy Register (no-login, simplified form for existing club members)
<input type="checkbox"/> ODP Program
<input type="checkbox"/> State Roster Registration Pool
Coaches
<input checked="" type="checkbox"/> Coach Registration Open
Manager/Team Officials
<input type="checkbox"/> Team Official Registration Open
Referees
<input type="checkbox"/> Referee Registration Open
Background Checks (Coaches, Team Officials, Referees)
<input type="checkbox"/> Attach Risk Management Form with Registration
Program Completion
<input type="checkbox"/> Mark New Online Form Submissions as Complete

2) Include background check form in registration and automatically check each registration as complete. All reports will automatically be processed. Use this feature if all registrants will be participating as either coach, manager, or volunteer.

Check both of the boxes highlighted below in the program basic setup to activate this method.
