

Passes are not lining up on the pass stock:

After some trial and error, we have found two ways to generate passes that consistently print well on the pass stock:

Document Generation
You may generate the following documents for teams to print:

Release records can be removed using the red "X" icon to the left of each name. Matching player alerts may be caused by orphaned roster data that was frozen before their team was removed from the event. To avoid this, reset the roster before removing a team. Or you can safely ignore any matching player alerts you determine are not relevant.
