

### **Iowa Olympic Development Program Recruiting Policy**

The Iowa Olympic Development Program is designed to assist Iowa's elite players in maximizing their potential. The program provides natural opportunities for young players to play and compete with other players from various clubs throughout the state. This is a unique environment and a wonderful opportunity to develop players.

The program has a strict policy regarding the recruitment of players by any of the program members (i.e., players, parents, and coaches). In short, the recruitment of players will NOT be tolerated. Any player, parent, or coach found to be recruiting within the program (i.e., encouraging one player to move from one club to another) will be removed from the program.
