

Printing Rosters

Highlight the approved team on the left. The team will need to be approved in order to print the official roster.

Click on 'Reports' then 'Folders & Teams' then 'Admin Roster' at the top.

Make sure 'State Roster-Final' is selected in the drop down, then click on 'generate'. This will open a PDF document of the roster. Please note that if you have a popup blocker on your browser that the roster may not open.
