

OSSL Game Rescheduling Rules

Excerpt from OSSL Rules

5.10 Scheduling of OSSL Games

- g) Game logistics (date, time, field, etc) are due in to OSSL no later than the dates set forth by the OSSL Commissioner and can only be rescheduled per Rule 5.10i. The home team is responsible for updating the game logistics in the OSYSA online schedule, contacting the appropriate OSSL Referee Assignor who will schedule a referee crew for the game, and securing the field at their cost. Should the home team not schedule the referees properly, the home team will forfeit the game and will be charged the forfeit fine.

- i) Games can be rescheduled due to inclement weather per Rule 5.12 (see OSYSA Policy on Weather) and for instances approved by OSSL, see below. Games may also be rescheduled in cases where two teams, playing each other in a tournament, have a previously scheduled OSSL game against each other. Teams must follow Rule 5.10l or 5.10m in these cases and submit the Tournament Form to OSSL for preapproval before the game can be rescheduled. In instances where games are rescheduled due to weather or tournament play as noted above, the home team AND organization canceling the fields must notify the Referee Assignor and OSSL within 24 hours. The home team is responsible for submitting new game logistics to OSSL and rescheduled games must take place by the end of the season.

If a game is postponed without the opponent's approval, the game will be treated as a forfeit against the team requesting the change.

In instances where both teams agree to change a game date finalized in the OSYSA system the following must occur:

1. The team requesting the change must contact the OSSL office for reschedule approval and pay a \$50 reschedule fee by credit card.
2. For a game postponed within three days of the scheduled date, the team requesting the reschedule must pay referee fees. Fees must be paid by credit card and only for referees assigned to the game at the time of the request.
3. The team requesting the change must provide the new date, time, and location of the rescheduled game. OSSL will then update the online schedule. Teams are not allowed to update the new game information in the online schedule.
Per the Referee Scheduling Policy, if the rescheduled game date is three to six days from the time of request, the team requesting the change must pay any applicable referee scheduling fees by credit card to OSSL.
 - a. Six days prior to game: \$25
 - b. Five days prior to game: \$50
 - c. Four days prior to game: \$75
 - d. Three days prior to game: \$100
4. The team requesting the change must notify the OSSL Referee Assignor of the rescheduled game logistics.
