- Showcase Fields are 1 – 6. You will see that they are designated (a) and (b). This is simply to indicate which half of the field you are to report and meet your team/coach. All games will be 9v9 on appropriate 9v9 size field to maximize playing time with appropriate rest periods.
- All players are required to have both t-shirts with them at all times...this number will be reflected on your profile sheets. You may choose what color socks and socks to wear.

- After some feedback from college coaches last year, we have kept a similar format to last year;
 - There will not be a training component to the session times this year. Instead, your assigned coach will warm you up and get you playing as soon as possible. This way, college coaches and ODP State staff have the maximum amount of time to evaluate you in a game environment.
 - We have added the following;
Because Goalkeepers traditionally see less contact time than field players during games, all Goalkeepers now have the option of warming up on the GK Warm Up field 30 minutes before their scheduled game time. This will be with a college coach or designated ODP/Showcase staff. This way, college coaches and ODP State staff have the ability to see your technique in a GK training environment before you begin your game.... and maximize your exposure.

See you soon!
