

Registration Link for West Virginia residents requesting permission to play in another state.

<http://wva-playingoos.affinitysoccer.com>

When you register your child, you will see where you can upload a picture and a birth certificate.

I only need the birth certificate uploaded, it can be from a jpeg or pdf file.

If you have a problem with the upload, then please email me a copy of the child's birth certificate.

Once you have completed the form, I will be approving the form and processing it with the state registrar for the state where you are requesting permission to play.

After both states have approved the form, I will email a copy of the approval back to the email address listed on the form.

NOTE: Do NOT use or forward the form without approval from both states - It is NOT a valid form without the approvals.
