

Submitting League Game Scores

Getting Ready!

1. The state office will create the referee game cards for each game location and email to hosting clubs. NEVER post the game cards on the website!
 - a. The game cards may include a roster and in many cases that roster may be incorrect or incomplete. The roster on the game card **DOES NOT** have to match the roster the team is using for the game.
 - b. All players and coaches **must** have a current membership card and the team must present a game roster.
2. The hosting club will print the referee game cards for all of the games scheduled on its fields.
3. Each hosting club can determine which process they will use to assure the scores are submitted to GotSoccer. Such as:
 - a. Have each center referee submit the scores for each of their games.
 - b. Have each center referee give their game cards to one (1) designated club representative who will submit the scores to GotSoccer.
 - c. Assign one (1) club representative to collect the game cards and mail them to the state office to enter the scores into GotSoccer.
4. Scores can be entered at the WYS website:
www.wyomingsoccer.com/programs/wyoming_league/
 - a. Click on the red SUBMIT SCORES button. To enter scores you need the event ID#, PIN and the game number. To double check it's useful to have the names of the home and away teams. All the information is on the game card.
5. If there are problems with the system, WYS asks that the hosting clubs keep the game cards until the end of the season.
6. You can also enter scores using a smart phone or the QR code at the top right of the game card. The phone in number is: 904-758-0875
