

CJSA Small Sided - Fall 2017

By now most all know that United States Youth Soccer board approved a two-year phase in for the Small-Sided Games **mandate** sent forward by US Soccer. The 2016-17 soccer year would serve as a transition year and the Small-Sided Games requirements will be fully implemented for the 2017-18 soccer year.

All information will be located on website at cjsa.org > tab resource center > scroll down to "small sided play"

Small sided Clarification

With the launch of the small sided standard approaching this fall, we've received a few questions on which portions of the PDIs are required and which are recommended.

Below is a chart that you can also use as a reference:

Player Development Standards (Required for all members in August 2017)	Player Development Philosophies (strongly recommended)
Birth Year Registration (slides 4-9)	Concussion Initiative (slides 17-18, 27-28, 43-44)
Small-Sided Games (slides 10-12)	4v4 Philosophies (slides 14-16)
4v4 Standards (slides 19-23)	7v7 Philosophies (slides 25-26, 32-33)
7v7 Standards (slides 29-31, 34-39)	9v9 Philosophies (slides 41-42)
9v9 Standards (slides 45-50)	

We also updated the PDI reference guide to clearly denote which slides are Standards and those that are Philosophies.

Will offer CJSA members a discount with use of code "CJSA17" Port-A-Field lines are custom made for various sports and are a great way to quickly establish proper boundaries and field markings for practice and play of many sports, with age appropriate versions made for Soccer. Simply find a grassy area, roll it out, and play. It's great. Field elements such as goal lines , mid-field and penalty boxes are labeled so that no measuring or stepping off distances is needed. Sponsor branding is available. Instead of a logo on a website, have them sponsor a field, at about the same cost!! Versions made for natural grass and turf.
