

EXECUTIVE DIRECTOR REPORT AUGUST/AGM 2018

Registration

- All clubs that have travel teams are up and running with Stack Sports
- Still need the name and contact info for a few club registrars
- I am still learning the system along with everyone else. If I am unable to answer a question I will try to find out the answer, however, you may contact Stack directly for a quicker answer
- When we signed on to use the system, we did not realize that they did not have a tutorial or a manual for the system. Several state associations are creating their own manual and we will most likely do the same.
- Support-886-892-0777 or clubandleaguesupport@ussoccerconnect.com
- All clubs must use the system in order for their coaches, volunteers and board members to complete a background check, Sexual Abuse Training and Concussion Training. If you have not set up your system, contact Craig Garifo at Craig.Garifo@Stacksports.com or (571) 525-5678. Coaches/adults that have not completed the above steps will not be covered under insurance.

State Cup/President's Cup

- Cost for NCS has increased to \$1200 a team and PC \$900 per team. Up from \$710 and \$550 respectfully
- Both regional events will be held in West Virginia. Would clubs support the regional event?
- Bond would need to increase to at least \$1200/\$900 per team.
- If we only have 1 team per age group-can they decide which competition to enter?
- We are no longer obligated to send referees to the events. They will be invited and handled as independent contractors.
- We have the option of just hosting a state tournament and the cost would decrease dramatically. Teams could not move forward as the event would not be part of US Youth.
- Open for suggestions. Will be discussed at the President's Meeting and a decision will be made by Presidents

Other items

- I am working with Stack Sports to create a new website. Should be ready by November 1
- ODP registration is "live"
