Enid asked how everyone else handled over rostering teams. I explained to him that the roster limits are a mandate from USSF and that over rostering teams is not allowed

Chandler let David know that Atoka had not scheduled any of their games yet. David is going to contact Atoka.

Sapulpa asked about having players on a team with duplicate numbers. David said that if the referee has a problem with it have some tape ready to add another number to the jersey.

Seminole said that there are some rosters that do not have a Coach name on them yet so there was not a way to contact the team if an issue came up. David said he would refresh rosters again and that should fix most of them and to let him know if the problem does not get fixed.

Oologah asked what would be the proper way to remove a step mom from the Club communication. We referred her to Cassie and Mike Naumann.

A few clubs talked about not having enough referees. Duncan reported that they have the largest referee pool (25) in their history.
