## SECTION 4. FORMATION OF DIVISIONS

4.01 Placement of Teams The League Operation Committee is responsible for the placement of teams based the team's performance in the AYSA leagues and promotion/relegation requirements.

4.02 Promotion and Relegation 4.02.01 After each Season, team Promotion and Relegation will take place. 4.02.02 Teams that finish in the #1 and #2 positions in Divisions 2 and lower will be "promoted" to the next higher division. There are a limited number of situations where promotions are not able to be done, such as teams being relegated to POSOL from Advanced Leagues. The placement of these relegated teams to POSOL Divisions 1 have priority over POSOL Division 2 teams being promoted to Division 1. 4.02.03 Teams that finish in the #6 and #7 positions in Divisions 1 and lower will be "relegated" to the next lower division.

4.04 New Teams New teams are defined as those teams that did not play in the POSOL during the immediately preceding season or a returning team that did not meet the 9 player continuity. No team is entitled to continue participation in the ASL without the approval of the ASL Committee and each team must apply for each season.

4.05 Teams Playing Up Teams may request to play up an age group (must comply with out of format policy).

### LEGEND

Green shaded teams are up for promotion and can apply for the higher division in 2018-2019.

Orange shaded teams are subject to relegation and should apply for the lower division in 2018-2019.

Depending upon teams applying, a team designated for relegation might still be placed in the same or higher division.
